

catches up with these issues and leads to a change in political leadership. Efforts to fight the administration cast light on its vile intent, which in turn can help bring about that political change. Perhaps most importantly, even failing opposition efforts are worth undertaking in these instances because fighting the President's discriminatory policies is the right thing to do.

President Trump's Muslim ban, no matter what form it ultimately takes, will surely land on the wrong side of our national sense of the promise of America, just as *Korematsu*, *Dred Scott*, *Plessy*, and other embarrassing instances of discrimination, fear, and hate in our history have before it. Conversely, the opposition, whether victorious or not, will follow in the footsteps of many great and heroic civil rights lawyers, towering figures like Thurgood Marshall and Jack Greenberg. In doing so, they will show the world that there is still hope, that America can still shine.
