

Checklist for Campus Visitors

(7 days or less)

Updated as of September 28, 2021

PRIOR TO VISITING CAMPUS

- Review the [COVID-19 Safety Awareness Training: Protection/Prevention Practices](#) document for current guidance & safety practices.
- Harvard University is requiring COVID vaccination for all Harvard community members who will have any on-campus presence this fall. Please plan to be fully vaccinated before coming to campus.
- You are encouraged to receive a COVID-19 test on the day of arrival through a [local clinic](#) or pharmacy at your own expense.
- Unvaccinated travelers from international points of departure should test again on day 4 or 5 (in addition to arrival date) and must avoid close, unmasked social activities including social gatherings and dining with other unvaccinated people, until a negative result is received for the arrival test. Keep documentation of any COVID-19 tests readily available in the event of exposure or other public health need.
- Self-assess your health; do not come to campus if ill, exhibiting symptoms, have been exposed to COVID-19 or have tested positive for COVID-19.
- Coordinate with your HLS contact for access into the buildings.

**Please note, all HLS Campus Buildings require badge access for entry.*

WHILE ON CAMPUS

- Wear a [University-approved face covering](#) whenever indoors and in accordance with University and any other local policies and keep documentation of any COVID-19 tests readily available at the event of any exposure or other public health need.
 - Follow good hygiene practices and any University or HLS-specific safety requirements.
 - Assuming you have no COVID symptoms and no known exposure to an infected person, it is okay to participate in in-person activities, following appropriate masking policies.
 - If you begin feeling symptomatic, complete the paper [Crimson Clear Health Attestation](#), inform your HLS contact/supervisor and leave campus immediately. You also need to contact Harvard University Health Services (HUHS) by email clear@huhs.harvard.edu or if you do not have access to email, call (617)-495-5711, press * and leave your contact information, explanation of symptoms and mention Crimson Clear in your message. HUHS will follow-up within 24 hours. Contact your personal health care provider if you have urgent medical questions. For medical emergencies, call 911 or go to your local emergency department.
- *You do not need to complete Crimson Clear if you feel well.**
- All visitors are expected to report a positive COVID-19 test result or clinician diagnosis to HUHS via email at clear@huhs.harvard.edu immediately if they have been on campus within 48 hours of symptom onset or positive test result.

For additional information, visit our [Return to Campus page](#), our [Visitors Page](#) or review our [FAQs!](#)
