Visitor COVID-19 Questionnaire
For Events

Updated as of March 3, 2022

Event hosts are responsible for undertaking the following steps and making the following inquiries of their visitors prior to the start of their events to ensure their visitors adhere to the University’s and HLS’ COVID-19 safety protocols at all times while they are on campus:

- Obtain visitors’ verbal attestation of full vaccination, including a booster if eligible, or confirmation of a negative COVID-19 test (PCR or rapid) that has been taken within 24 hours of arrival to campus.

- Ask visitors the following questions:
  - Are you experiencing any symptoms of COVID-19 (e.g., fever, chills, muscle/body aches, sore throat, new cough, congested or runny nose, fatigue, headache, shortness of breath or difficulty breathing, loss of taste or smell, or any gastrointestinal symptoms)?
  - Have you been exposed to or diagnosed with COVID-19 in the last 10 days?

- Affirm visitors will comply with indoor masking protocols at all times.

- Inform visitors that they must be escorted in/out of HUID-locked spaces on campus by an HLS community member.

- Inform visitors that they are expected to report a positive COVID-19 test result or clinician diagnosis to [HUHS via email](mailto:HUHS@huhs.harvard.edu) immediately if they have been on campus within 48 hours of symptom onset or receive a positive COVID-19 test result.
