By this application to the Winter Writing Program (“WWP”), I confirm that I have already registered for a written work project of 2 credits.

<input type="checkbox"/> I do not have a winter course at this time.	<input type="checkbox"/> My winter course is classroom only Title of the course: _____
<input type="checkbox"/> My winter course registration is coordinated through the Office of Clinical Programs (“OCP”), and I understand that it is my responsibility to drop the course and to follow OCP procedures and deadlines to avoid a WD.	

Check Degree Credit Requirements: It is the responsibility of all applicants considering the WWP in lieu of a winter course to check their LL.M. credits carefully against HLS degree requirements.

Note: Participants in the WWP are expected spend the winter term in Cambridge, engaged full time in pursuing research and writing toward completion of a single two-credit writing project; within this context, students will generally structure their own time and efforts during the winter term. However, there will be a mandatory group session on writing issues with Jane Bestor before the end of the first week of the term, and each participant will meet with Jane in mid-January in order to share insights, discuss research objectives, and identify areas where additional assistance may be needed.

Use this page as the cover sheet for the remainder of your application, consisting of your written responses to the questions specified in Part 2 of this application (found on the next page).

___ The writing project in this application is the only writing project I have at this time.

___ The writing project in this application is in addition to one or more other writing projects I have at this time, and I acknowledge that I must consult with Nancy Pinn about the procedural steps that must be taken and the documentation that must be provided in this case.

Please note: Students considering projects that fall under IRB purview, i.e., regulated research with human subjects (including surveys or interviews) should review the University’s policies on the use of human subjects in research available on the [CUHS Website](#) and discuss their work with an [Institutional Review Board Administrator](#) at CUHS and the Law School’s [Director of Research Administration](#). Note that students should allow sufficient time for IRB review; late requests for review may not be granted.
